

COOL-LUBE 126

SYNTHETIC GRINDING COOLANT

General Description:

COOL-LUBE 126 is an exceptional synthetic grinding coolant formulated for use where a large amount of metal is removed in a single pass, such as in creep feed grinding. This product is low foaming, offers excellent rust protection, contains no sulfur or chlorine, and does not sustain biological growth. COOL-LUBE 126 contains a unique demulsifying additive that will reject tramp oils, keeping the fluid clear for easy viewing of the part. COOL-LUBE 126 also precipitates swarf rapidly allowing for maximum filtration.

Color and Appearance	Lt. Yellow
Specific Gravity @ 68°F	1.055
Flash Point	N/A
pH of Concentrate	10.0
pH @ 3%	8.8
Odor	Mild
Solubility in Water	Soluble

Benefits:

- **Very low foaming.**
- **Excellent rust protection.**
- **Superior bio-resistancy.**
- **Rapidly precipitates swarf for maximum filtration.**

Storage:

Keep at room temperature. Avoid freezing. Keep container closed when not in use.

Disposal:

According to Federal, State, and Local Regulations.

Issue Date: April 2003
