

COOL-LUBE 141

SEMI-SYNTHETIC METAL WORKING FLUID

General Description:

COOL-LUBE 141 is premium semi-synthetic general machining coolant formulated to be used on all types of metal. This product will keep the machine surface clean and free of tacky residues or build-ups. COOL-LUBE 141 contains an excellent rust inhibitor, non-chlorinated extreme pressure additives, and a superior lubricity package which make it ideal for most all operations. When used with RiteWay slideway lubricants, COOL-LUBE 141 is capable of remaining fresh for long periods of time in machine sumps reducing timely shutdowns for fluid cleanouts.

Color and Appearance	Blue
Specific Gravity @ 68°F	.99
Flash Point	>210°F
pH of Concentrate	10.0
pH @ 5%	8.8-9.0
Odor	Mild
Solubility in Water	Soluble

Benefits:

- User friendly, does not cause or promote skin irritations.
- Can be used to machine all metals.
- Keeps machine surface clean and free of build-up.
- Can be recycled through most types of reclaiming methods.

Recommended Usage Concentration

General Machining	20:1
Heavy Duty Machining	15:1

- Always add coolant to water

Storage:

Keep at room temperature. Do not freeze. Keep container closed when not in use.

Disposal:

According to Federal, State, and Local Regulations.

Issue Date: June 21, 2003
