

# **RUST FREE 325**

## **HEAVY DUTY ACRYLIC RUST INHIBITOR**

### **General Description:**

**RUST FREE 325 is a heavy-duty acrylic based rust inhibitor formulated for long-term indoor storage of both ferrous and non-ferrous parts. This product produces a fast drying, hard film coating that will give up to 12 months indoor protection. Parts that are dried by heated forced air will have increased film thickness and be more resistant to corrosion.**

<b>Color and Appearance</b>	<b>Clear Liquid</b>
<b>Specific Gravity @ 68°F</b>	<b>1.02</b>
<b>Dilution Rate</b>	<b>5% - 10%</b>
<b>Odor</b>	<b>Chemical</b>
<b>Solubility in Water</b>	<b>Soluble</b>

### **Benefits:**

- **Hard acrylic film will provide long-term indoor storage.**
- **Coating will be resistant to rupture under shipping conditions.**

### **Storage:**

**Keep at room temperature. Avoid freezing.**

### **Disposal:**

**According to Federal, State, and Local Regulations.**
