

# RUST FREE 331

## SOLVENT FREE WATER DISPLACING RUST INHIBITOR

RUST FREE 331 is a unique water displacing rust inhibitor that uses water as the carrier instead of solvent which eliminates a source of V.O.C.'s in the workplace. This product will leave a soft, semi-waxy film that is dry to the touch in about 15 minutes and provides effective, indoor protection to ferrous and non-ferrous metal for up to 2 years. Parts protected with a 2 mil film of RUST FREE 331 will normally exceed 500 hours in a water fog humidity cabinet test with no corrosion.

Color and Appearance	Milky Liquid
Specific Gravity @ 68°F	1.01
Flash Point	>210°F
pH of Concentrate	9.0
pH @ 3%	N/A
Odor	Mild
Solubility in Water	Soluble

### Benefits:

- Eliminate V.O.C.'s created with solvent-based rust inhibitors. Uses WATER as a carrier
- Long term indoor protection of both ferrous and non-ferrous metals.
- Easy to apply by dip, spray, brush, or roller.
- Easily removed in an alkaline cleaning system.

### Recommended Usage Concentration

Use neat

### Storage:

Keep at room temperature. Avoid freezing. Keep container closed when not in use.

### Disposal:

According to Federal, State, and Local Regulations.

Issue Date: December 7, 1998
